Continental
CONTITECH

Continental has been at the forefront of flexible hose technology, predominantly in the marine environment, for well over 60 years.

Marking: CONTINENTAL FLEXWING PETROLEUM HOSE 150 PSI WP CAUTION: MADE IN CANADA

Specifications

- Construction Tube: Nitrile Synthetic Rubber ARPM Class A (High Oil Resistance)
- Cover: Synthetic rubber (Oil-Resistant) (smooth cover & wrapped impression)
- Reinforcement: Spiral-ply Synthetic Fabric with Dual Wire Helix
- Temperature Range: -35°F to 200°F (-37°C to 93°C)

Flexwing® Petroleum is for use in tank truck and in-plant operations to transfer gasoline, oil, ethanol blends and other petroleum base products up to 50% aromatic content. It is designed for pressure, gravity flow or full suction service. Newly redesigned for improved flexibility and a lighter weight construction.

Preventive Maintenance:

A good hose inspection will always involve checking for leaks in the hose itself as well as at connectors and couplings. Leaks can often be identified by looking for puddles, dirty areas on the hoses or equipment, and low fluid levels.

Our knowledge and expertise allow us to deliver the most innovative and highest-quality products on the market. Plus, our extensive problem-solving experience across multiple industries and applications enables us to share innovations over our entire product offering. Which means we can deliver unexpected solutions and advanced improvements in situations where others can't.
